Outpatient Prescription Drug Benefits—Cost Sharing (Part D)

Deductible \$615 for all Part D prescription drugs.

Initial Coverage Stage During the Initial Coverage Stage, the Plan pays its share of the cost of your covered prescription drugs, and you pay your share (your coinsurance amount). Your share of the cost will vary depending on the drug and where you fill your prescription.

25% coinsurance **Standard retail cost-sharing** (in-network) (up to a 30-day supply)

25% coinsurance **Standard mail-order cost-sharing** (up to a 90-day supply)

25% coinsurance **Long-term care (LTC) cost-sharing** (up to a 31-day supply)

The Coverage Gap Stage was removed in 2025. The Part D prescription drug “donut hole” no longer exists.

Once your out-of-pocket costs have reached \$2,100, you leave the Initial Coverage Stage and move into the Catastrophic Coverage Stage.

Catastrophic Stage During this payment stage, the Plan pays the full cost for your covered Part D drugs. You pay nothing.

You will stay in this payment stage until the end of the calendar year.

Cost-sharing may differ based on the point of service (e.g., mail order, retail, Long Term Care, home infusion), whether the pharmacy is in our standard network, or whether the prescription is a short-term supply (30 days) or long-term supply (90 days).

However, you may qualify for a Low-Income Subsidy (LIS) or Extra Help and your cost-sharing would depend on your level of assistance. If you qualify for Extra Help, you will receive a notification detailing your copay level and amounts, and you will not pay the 25% coinsurance. See the table below.

1	\$5.10 Generic \$12.65 Brand	\$0.00
